NOTICE

We are excited to announce a golden opportunity for all of you to showcase your innovation, problem-solving skills, and technical expertise on a national platform. UIET KUK is participating in the prestigious Smart India Hackathon (SIH) 2023, and we invite all enthusiastic students to be a part of this exciting journey.

About SIH 2023:

Smart India Hackathon is an annual innovation competition where students from colleges and universities across India come together to address real-world problems presented by government departments and organizations. It's a platform to turn your ideas into solutions that can make a significant impact on society.

Why Should You Participate?

Real-World Problem Solving: SIH challenges you to tackle pressing issues faced by various government bodies, allowing you to contribute to meaningful solutions.

Enhance Your Skills: Apply your classroom knowledge to practical problems, gain hands-on experience, and work with cutting-edge technologies.

Mentorship and Networking: Receive guidance from experts and build a network that can boost your career.

National Recognition: Winning teams receive national recognition, certificates, and awards, enhancing your resume.

Notable Achievements:

We are proud to mention that teams from UIET KUK secured the 1st prize of 1 lakh in both the 2020 and 2022 editions of SIH, demonstrating the exceptional talent within our student community.

How to Participate:

- Form a team of passionate individuals.
- Register for Internal SIH 2023 by 17th September 2023.
- Start working on your innovative solutions.

For more information and to register, visit <https://forms.gle/tqgSPYtMwcupzebd8>. Don't miss this opportunity to make a difference and gain valuable experience. Join us in taking a step towards innovation, problem-solving, and recognition. Let's make UIET KUK proud once again!

The poster features a dark blue background with glowing neon outlines forming a rectangular frame at the top. Inside this frame are logos for Kukdehra University, the Institution's Innovation Council (Ministry of Education Initiative), the Ministry of Education Government of India, Smart India Hackathon 2023, and E-CELL UIET KUK. Below the frame, the title "PERKS OF BEING A SIH PARTICIPANT !!!" is displayed in large, white, 3D-style letters. To the left of the title, there is a block of text describing the benefits of participation. To the right, there is a stylized illustration of a person wearing a futuristic, glowing blue and green suit, standing on a grid-like floor.

PERKS OF BEING A SIH PARTICIPANT !!!

Being just a participant in SIH gives you an extra advantage over others by giving you a hand -crafted exposure of real-world problems are studied , what goes into the thought process required to arrive at a feasible solution . Thus , taking your level of experience to great heights!!!! .

-  Great opportunity to innovate
-  Encourage to think big
-  Connect with industry

WHAT FORMER PARTICIPANTS HAS TO SAY!!

Participating in and winning SIH-2022 was an immensely rewarding journey for my team, Morse Coders. We translated our learning into a tangible real-world product within a short timeframe, fostering a unique perspective on problem-solving. The hackathon not only honed our teamwork and provided opportunities to network with industry and domain experts, forging valuable connections. The experience was truly invaluable.

~RAJAT BANSAL (ECE 2023)
WINNER SIH 2022

SIH'22 was a great opportunity to create innovative solutions within a limited timeframe while stepping out beyond one's comfort zone. Hackathons encourage you to think outside the box and come up with creative solutions to problems. You'll have the opportunity to connect with industry professionals, potential employers, and fellow participants. Real-world Problem Solving, Presentation Skills, Teamwork and Collaboration are some of the experiences you can gain from participating in a hackathon. It was a whole bunch of useful experiences packed into one event!

~ABHILASHA (ECE 2024)
FINALIST SIH 2022

Going to participate in SIH2022 was a great experience, I met a lot of new people, students from all over the country and mentors who are leading industry experts. It was a new and definitely useful experience! To all the students, I recommend to take this chance and lead us to another victory this year. Make polished projects with good user experience beforehand and you will win with no doubts! All the best to all participating teams from my side.

~PARMINDER (ECE 2023)
